THE ARTIST

Lamba is a nomadic musician, composer, and multi-instrumentalist. Born in Kanaky/New Caledonia in the Pacific, his artistic identity was shaped by a life of travel.

His career is marked by remarkable stages, ranging from a performance at the Opéra Garnier in Paris to the lineup of the Medicine Festival.

Alone on stage, Lamba crafts his music live through an organic live looping setup, blending the richness of his instruments and voice with the depth of synthesizers and electronic rhythms.

His universe unfolds as a colorful journey, driven by an atypical groove. Nothing is pre-recorded: every show is entirely unique, unfolding as a moment of alignment between the artist and the audience, offering a peaceful and wild immersion.

THE LIVE EXPERIENCE

Lamba's music was forged in the heart of nature. Composed inside converted mobile music studios since 2017, and refined through direct contact with audiences and open spaces, this road-honed energy translates into a unique solo live act designed for any stage.

His multi-instrumental setup blends flute, flutebox, guitar, and bowed strings with a versatile vocal delivery, ranging from French and English lyrics to throat singing, beatbox, and head voice, all woven into powerful electronic atmospheres.

It is a magnetic live format that shifts effortlessly from peaceful, hypnotic spaces to a wild tribal trance, offering a powerful connection with the crowd.
